

WORKING BEE

MONDAY 6 NOVEMBER

We are planning on having 2 working bees during November, the first on Monday 6 November commencing at 9 am.

The interior clubhouse renovations are almost complete, so now is the time to clean-up the exterior building and surrounding areas. This means tidying the carpet green area, including carpet gutters, benches, bus stop shelters etc.

Both Mayfair and Knightsbridge grass greens are now in play so we need to make sure everything in that area is tidy and clean. Sunscreen blinds, garden areas will need attention. The clubhouse building needs washing down in areas and all windows cleaned. Where necessary, bench seats will require some painting repairs.

We need the help of members to achieve this, so please put your hand up and volunteer for the first Working Bee on Monday 6 November.

Let's be proud and present MBBC Clubhouse and grounds to be the best in North Harbour.

We can do this!!!

If you have expertise in an area where you think you're best suited, please let me know and I will make sure you are appointed to that area.

Contact me any time either by email or text, details below:
